Subject: Revision to Twin Pak Easy Access Kits (P504-562)

Bill/Kim,

The D412-705-021 Oil Pressure Transmitter Access Kit and the D412-705-023 Oil Cooler Support Removable Lower Panel Kit have both been approved by Transport Canada.

- ✓ Please update the blue file paperwork to include IIN-D412-705 Rev. B and ICA-D412-705 Rev. 2. Roberto has both of these files.
- ✓ NOTE THAT THE STAMP ON THE FRONT OF IIN-D412-705 REV. B MUST REFER TO SH04-25 ISSUE 1 AND BE DATED 04.12.14. Note that the existing Canadian STC SH04-25 Issue 1 and the existing FAA STC ST01994NY apply to D412-705-021 and -023 because of the "or later Transport Canada approved revision" wording on both the Canadian and FAA STC's. Therefore, these kits are now instantaneously FAA approved, which is good news.
- ✓ Please prepare a package of paperwork and an ARC for D412-705-021 B²¹⁵⁹²????? that has already been shipped and installed by Eagle in one of its machines (commonly referred to as John's 412 at Eagle). Send this to the attention of Jason Loader..
- ✓ I would like to see all paperwork changed out for all D412-705 that we have in stock and in production.
- ✓ This would be a good time to make an EASA application to Greg Oucharek in Calgary for the D412-705 kits.

Give me a shout if you want to clarify any of the above.

David
